

# REPLACEMENT COOLANT ELEMENT PART NUMBERS.

These are the most common elements of this type. Should you require other voltages or wattages please contact our Sales Office.

The elements below have standard 35-85C thermostats. Should you require 0-40C thermostats please add the suffix 'G' to the part numbers.

## *DLE*

| VOLTAGE | WATTAGE | PART NUMBER |
|---------|---------|-------------|
| 230     | 500     | 1DLE        |
| 230     | 750     | 2DLE        |
